Motivation

International developments in the political and religious arena indicate that some within those powers are 'testing the waters' regarding the preparedness of the international community towards a gradual disclosure of the fact, already known by many, that we are not alone in the universe.

International Developments

Recent speeches by the Pope may have implied that sections in the Vatican are in favor of facilitating a gradual disclosure of extraterrestrial life. For instance, the Pope said that if extraterrestrials would come down, he would welcome and bless them.

In the political arena, several prominent figures have hinted a similar sentiment, implying the need for gradual but urgent disclosure.

In particular, Mr. Barack Obama has made a public "joke" during a recent interview (<https://www.youtube.com/watch?v=EYzRY2XpLBk>), stating that "the extraterrestrials have full control", and possibly implying that it is the extraterrestrials themselves that are delaying disclosure.

Mr. Obama had been debriefed early in 2009 by Dr. Steven M Greer, founder and director of The Disclosure Project, regarding what Dr. Greer and his intelligence would see as some of the crucial challenges towards the matter to be dealt with at a presidential level.

Amongst the material provided by Dr. Greer to the White House, evidence has surfaced that a simulated "alien attack" is or has been under consideration by the Shadow Government ⁽¹⁾ in order to increase fear, promote human distrust of cosmic forces and a justification for further paranoia and militarization.

(1) Shadow Government: This term is here employed to loosely refer to the groups who seem to operate 'invisibly' and outside the domain of the law in all countries, promoting militarization, paranoia, fear, hatred and other mass-manipulation methods as a means to justify their own existence and agendas.

From a scientific front, NASA has confirmed that there are rivers on the surface of Mars, with the timing of their release occurring only a few months after high resolution images of (ex-planet) Pluto were made known for the first time, revealing a surprising and welcoming heart-shaped formation on the surface.

These developments come about with a renewed public interest in the possibility of extraterrestrial life, and an increasingly anxious human consciousness for more reliable information about space.

Our Address

Amongst the developments highlighted above, we wish to address Mr. Obama's comments, as well as the potential threat of a hoax "alien attack" in particular, because a true and accurate understanding of those issues would be of tremendous importance to empower people at this time.

Our points are summarized as follows:

1. The sentiment that extraterrestrials do not wish disclosure is **incompatible** with higher dimensional understanding. As we have thoroughly addressed in www.wherethelightcomes.com, the extraterrestrial intelligences that are or have been working together with the shadow government 'underground' represent a tiny little fraction of the overall spectrum, and are **not** from enlightened worlds.
2. The vast majority of cosmic players are multidimensional beings that have a great love and respect for us, and have a great desire to facilitate disclosure as soon as possible, always under the karmic law of non-interference. This includes all government representatives of our neighboring planets in the Solar System, without exception. These neighbors work on a higher dimensional framework and jointly administer the Solar System, and have an active representation within the galactic hierarchy of spiritually enlightened worlds (see www.wherethelightcomes.com).
3. In the case of any demonstration of force implying a potential attack of extraterrestrial origin, the population must be prepared to discern that there is absolutely **zero chance** of such exercise being an authentic alien attack.
4. We can easily ascertain our statement in (3) with 100% confidence, based on the unequivocal fact that the Earth and its atmospheric belt (excluding the moon) sit in a free will zone of non-interference. Hence, by karmic law, if any unenlightened extraterrestrial force from any point within or outside the galaxy were to interfere, their attempts would be immediately stopped and dealt with by the spiritual hierarchy of the galaxy, whose

representatives are stationed in the Solar System to guarantee that our free will zone remains undisturbed until we have reached a more advanced stage in our evolution.

5. Extensive research on the famous Roswell case (1947) continues to suggest that the crash may have been a deliberate act by beings from the star Zeta Reticuli (39 light years from Earth), who were attracted by the 'etheric' disturbance caused by our early atomic experimentation and who, being aware of the karmic law of non-interference, saw in this deliberate crash a potential 'legal' avenue to force an initial approach and exchange with the Earth's shadow government.
6. As discussed in detail in www.wherethelightcomes.com, the galactic Masters that have approached us and many other groups working for spiritual light on Earth have been categorical that they do **not** recommend a joint work with beings from Zeta Reticuli, with the primary reason given being that of their highly unbalanced and undesirable state with very advanced technology contrasting with a pending/lacking spiritual development.
7. For a wider grasp of how the multidimensional, extraterrestrial community of light (as well as multidimensional beings from inside the Earth) are helping our transition into a higher octave of consciousness/energy vibration please refer to extensive material provided in www.wherethelightcomes.com
